

PLANETARY MIXERS, MR AND MRC

MR

A BRIDGE, INDUSTRIAL PLANETARY MIXER/BLENDER

Double tool of customers choice, intended for industrial production of blends that require a rapid mixture of solid and liquid ingredients.

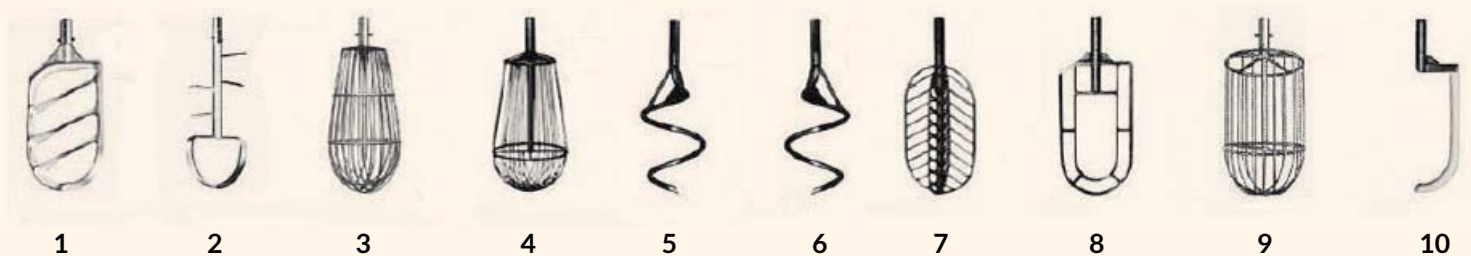

MR

The airtight bowl closure is obtained by the application of special, long lasting gaskets , thus allowing under pressure mixing with extremely filtered, clean air, in observance of sanitation international norms.

Many types of different tools, for different application will allow the development of doughs,blends, creams etc.
